Phase 1	<i>Southampton had taken the 3200 allocation with an initial indication that they would sell the majority, As it turned out, they sold considerably less with 2443 sold but only 1756 actually in attendance. The estimation that 200-250 low rated youth risk seemed high for a weekday game with no return train. Circa 50 of the low rated youth actually turned up and were very well behaved. The majority of fans were families. Very few fans of either side in the city centre, but Sloper Rd was busy towards the end of phase one, with many fans using private cars and parking in Grangetown.</i>		
Phase 2	<i>Huge seg lines with only the Ninian & Grandstand in use. No much to report from a behaviour view point. An eight-goal thriller, and Cardiff concentrating on the league for the remainder of this season!</i>		
Phase 3	<i>A the conclusion a male from the Ninian Stand ran onto the pitch and towards Russell Martin who was on the pitch celebrating the win. He was tackled by Southampton playing staff and held for police arrival. He was then seen by stadium staff to drop a waiters tool with a small knife blade on it. He was from Sheffield, 15 years of age and without adult supervision. He was arrested a for possession of a bladed article in a public place and pitch invasion. A the time of writing he is in custody awaiting an appropriate adult. This is clearly a safeguarding matter, and a PPN to be submitted.</i>
